

ENSURE COMPLIANCE: Port State Control Course

JOIN US

JULY

2025

- Understand PSC inspection protocols & regimes
- Avoid detainable deficiencies
- Prepare for USCG, AMSA, Paris & Tokyo MoU requirements

Enhance Safety & Compliance with PSC Training

Port State Control training equips seafarers to meet evolving international regulations. Learn how to prepare vessels, documentation, and crews for PSC inspections to avoid detentions and delays. Stay ahead of enforcement timelines and boost onboard safety.

Why Port State Control Training Matters

PSC inspections can lead to vessel delays or detentions if non-compliance is found. This training helps crews spot and correct common deficiencies, ensuring smooth port calls, better regulatory compliance, and lower operational risk.

What You'll Learn

Gain practical knowledge of the PSC framework, inspection procedures, and key areas of compliance. Learn how to prepare ship systems, crew readiness, and documentation to pass inspections with confidence.

Who Should Enroll?

Ideal for deck and engine officers, compliance managers, DPA, and anyone involved in vessel operations. Companies benefit by minimizing inspection risks, enhancing compliance culture, and avoiding PSC-related delays or penalties.
