

Certified to Connect, Trained to Protect: DPA Training for Maritime Professionals

JOIN US

MARCH
2026

- Understand the Purpose and Scope of the ISM Code
- Learn the Operational Duties & Legal Role of the DPA
- Acquire Tools for Monitoring Safety and Pollution Control
- Apply and Maintain SMS-SMC Effectively

Enhance Compliance with Strategic Training

Gain crucial insights into the DPA's central role in ISM Code compliance. Ensure your company's operations meet international maritime safety standards.

Why DPA Certification Matters?

The DPA serves as the critical communication bridge between the shore and vessel. Trained DPAs reduce risks, support safe operations, and maintain the company's legal and reputational integrity.

Course Highlights

- ✓ ISM Code structure & legal framework
- ✓ MSC-MEPC.7/Circ.6 guidelines
- ✓ SMS application & audit readiness
- ✓ Pollution prevention protocols

Who Should Attend?

This course is ideal for superintendents, marine managers, safety officers, and any individual appointed as or aspiring to become a Designated Person Ashore under the ISM Code.
