

Advance Your Maritime Career.

Become A Certified Ship Security Officer And Lead Onboard Security Operations With Confidence.

RESERVE YOUR SEAT

Trusted Maritime Security Training

Our Ship Security Officer (SSO) program, aligned with ISPS Code and international standards, delivers essential knowledge and practical training.

It prepares officers to manage onboard security and respond effectively to modern maritime threats.

What You'll Master in the SSO Course

Ship Security Fundamentals

Maritime security essentials, threat assessment, and incident response for vessels and offshore platforms.

Practical Security Operations

Engage in realistic security drills, patrols, access control, and vessel inspections.

Advanced Maritime Security

Address modern challenges, including cyber risks, incident management, reporting, and emergency coordination.
