

Proficiency in Fast Rescue Boats: Readiness, Leadership & Rapid Response

In a real emergency, training makes the difference. The Proficiency in FRB course equips participants with the essential operational knowledge and practical skills to launch, maneuver, and command Fast Rescue Boats efficiently under pressure. From readiness inspections to advanced handling techniques, this course ensures you are fully prepared to respond when every second counts.

Fast Rescue Boat Operations & Safety Competence

“As emergency demands evolve, seafarers need both skill and leadership. This course builds the confidence to command Fast Rescue Boat operations safely and protect crew and vessel.”

Gain Critical Skills To:

- ✓ Launch and recover FRB safely in varying conditions
- ✓ Navigate and maneuver FRBs at high speed and in rough weather
- ✓ Coordinate and communicate during emergencies
- ✓ Maintain full STCW compliance and safety preparedness onboard

What To Expect?

Upon completion, participants gain the confidence and skills to take charge of FRB operations through realistic, scenario-based training that ensures readiness and compliance with global safety standards.

Without proper FRB training, response delays can put lives at risk. This course builds swift, effective action for safe rescue operations.
Stay trained. Stay ready. Save lives.
